

Let suppose you have been given a task to design a mock of the following scenario:

There is a software company with a startup attitude. Headquartered in Helsinki and with a development team located in Karachi, who serve clients in Finland and other European countries. Helsinki, the Finnish capital, has a vibrant startup ecosystem, where innovations for the 21st century are created. Karachi is a vibrant metropolitan, which has developed into the IT hub of Pakistan, with young and skilful talent eager to drive digitalisation

Tasks.

1. Please design a page (2 variants) to reflect the above scenario with your creativity. You can use the text provided above as an example text for your design.
2. Write HTML and CSS of that page. You are not allowed to use any external javascript libraries or CSS frameworks.
3. The page has to be responsive and it should look OK on different screens. (At least on most common screens)
4. You are only allowed to use one colour in addition to black and white.
5. HTML should follow WCAG requirements and it should pass W3C validation
6. For CSS, it will be plus if you will use CSS pre-processors i.e (SASS, LESS)

Please submit your results in a zip file. Your work will not be used for any other purpose than this recruitment process.
